PIE bundles Scanners with SilverFast 8
SilverFast SE 8 part of new PIE PrimeFilm Scanners

Kiel, Germany/ New Taipei City, Taiwan, May 15th 2014. LaserSoft Imaging (LSI) and Pacific Image Electronics (PIE) intensify their cooperation in the field of scanner hardware and software. As of now, PrimeFilm X, XA and XE are supplied with SilverFast SE 8.

As an entry-level version SilverFast SE 8 offers outstanding scan results and easy handling. Users benefit from a variety of automatic functions, which make the scan and image optimization process easier, while a consistently high quality can be guaranteed.

"We are creating additional value for our customers, due to the fact that we now deliver our scanner with the leading scanner software," says C.Y. Tseng, Product Manager of PIE. When purchasing any of the above-named PIE scanners, the customer receives a SilverFast SE 8 DVD case with a registration code for unlocking his SE 8 full version on the SilverFast website. Customers who already own one of these scanners, can visit www.silverfast.com/fullsepie for more informations.

LSI extends its prominent role as a leading Digital Imaging company. Karl-Heinz Zahorsky, founder and CEO of LaserSoft Imaging: "We are happy about this close cooperation and proud to have another SilverFast 8 bundle with one of the most important scanner manufacturer". Both companies plan to further expand their cooperation in the coming months.
